FITTINGS

Sign Up Now!

Metro Swim Shop is the industry's leading provider in the USA. We will conduct an on-site team fitting at your location at no additional cost to you.
We will essentially set-up a store at your pool with items that you have selected for your team. We will also bring along other swimming essentials, like goggles, caps, practice suits, etc. This allows your swimmers to try on different suit sizes to find the perfect fit. It also allows your members to purchase all of their equipment and accessories needed for the season in a single place and with professional help.
Most importantly, it eliminates the responsibility and added burden of distributing product and handling payments. If your team selects non-custom team suits, swimmers can take their suits home with them the same day!

Lightweight, hydrophobic micro-filament textile with enhanced stretch and memory retention. A woven blend (85% Nylon, 15% Lycra) that provides 360 degree core stabilization. Engineered for speed off the block and in the water. A stitch-less, specialized seams and sleek designs partner to optimize body position and reduce drag. INFINITY START SYSTEM

Give your swimmers the competitive edge and your officials an easy to use system. The false start recall feature enables the starter to signal an unfair start and immediately alert the competitors.

Only start systems from Colorado Time Systems (CTS) emit the fairest starting tone. A specialized and unique starting tone was developed by CTS to maximize the consistent distribution of sound across all lanes of a pool. By mounting additional speakers under each starting block, or at both ends of the pool, each swimmer hears the starting signal simultaneously. The INFINITY will not drive speakers under each starting block, but the Champstart will. The INFINITY will drive a speaker at each end of the pool. In addition, a highly visible strobe light automatically flashes as the horn sounds thus providing fair starts to hearing impaired athletes.

The Infinity Start System INF-SSM consists of a wired microphone with start button, start module, 40-watt corrosion resistant speaker, harmonic horn sound, internal gel-cell battery, charging capabilities and manual. A secondary 40-watt speaker can be added to the Infinity Start System. A second wired microphone is also available and can be used by the false start judge or second start official.

15" wide x 8.9" high x 6.9" deep
Weight: 12 lbs.

CHAMPIONSHIP START SYSTEM

This start system delivers rugged durability and long lasting performance. It is a high-powered, easy to set up system and is an excellent choice for larger aquatic facilities. Championship Start System allows you to design a customized solution for your aquatic facility working in conjunction with starting block mounted speakers and speedlights and can even be used as a public address system. It has three separate microphone inputs and external 360° strobe that flashes with the start signal. Can be operated as a portable or fixed system via battery or 110/240 volt power.

PARAGON STARTING PLATFORMS*

Universally acclaimed by coaches and competitive swimmers. Eight different models are available, with two types of anchoring systems to meet your every need and pool profile. Paragon starting platforms are widely used on USS, NCAA, FINA & NFSHSA competition pools.

All stainless steel construction with slip resistant polypropylene top and step. **COMPETITOR** style platforms utilize two-legged design that slips into dual post anchor assembly and requires no further attachment. **QUICKSET** style platforms utilize single pedestal design that slips into single anchor socket and requires no further attachment. **PARAFLYTE** style platforms utilize single pedestal design that is bolted into the Paraflyte anchor socket. All platforms are available with level or 10 degree sloped tops and either plain or numbered.

Due to the customized nature of these starting platforms we will require a drawing of your pool profile prior to offering pricing. Please contact Brian Hendrix at 800-526-8788 or in New Jersey at 908-647-8121 for a starting platform information packet or to ask any questions that you may have about any of the **PARAGON** starting platforms.

STARTING PLATFORM SAFETY COVERS
These tough, lightweight plastic safety covers prevent use of your starting platforms by unsupervised swimmers. They are easy to put on and remove, and require minimal storage space, thanks to their stacking ability. The safety covers fit all PARAGON and most other platforms. #23960. $123.75 ea. $115.50 for 6 or more.

Metro SwimShop

Availability Guarantee Service

The traditional service:

Traditionally, a team mom or volunteer determines the sizing, gets all of the orders together, buys the suits etc. The team volunteers and the coaches do all the work!

The problem with the traditional service:

1. The team volunteer will quickly discover this is more than a full time job; with all of the service issues (wrong sizes, wrong colors, wrong printed name etc). The volunteer may still be working her way into January of the next year.
2. This traditional service could bring the team extra unwanted inventory, as well as defective products that wipe out the profit the team was hoping for.

Metro's approach:

1. We outfit teams physically from the Mid-Atlantic to the Northeast, as well as online for all of North America.
2. We guarantee year-round availability if the team signs a two year contract for the team with imprinted suits.
3. We take the order and ship it to the swimmers home, taking care of all the individual issues.

Benefits of *Metro's* Service:

1. *Metro* does all the work
2. The team has flexibility
3. Quality service and delivery are guaranteed
4. We reduce the workload for the team volunteers and coaches

If you have any questions about or products or services, please give us a call. We will be happy to respond to any inquiry.
